Dr. Moazzam Ali

Reproductive Health and Research (RHR) at the World Health Organization

Dr. Moazzam Ali is a physician by training with a Master's degree as well as Doctorate in public health.

Currently he is working at the Department of Reproductive Health and Research (RHR) at the World Health Organization, based in Geneva, Switzerland. Before joining WHO, he was teaching at the University of Tokyo, Japan.

His main work is in family planning /contraception and is a member of the team that produces the landmark Medical Eligibility Criteria (MEC) and Selected Practice Recommendations (SPR) in family planning. He is presently engaged in a few studies that include management of a multi-country clinical trial in long acting reversible contraceptives; health care financing modalities in FP to reach the unreached, voucher schemes to increase contraceptive uptake and continuation in developing countries. He is also engaged in supporting countries in strengthening research capacity in reproductive health.

[< Back to list of speakers](#)

Johnnie Amenyah

Director of Country Programs, John Snow Inc./USAID | DELIVER PROJECT

Johnnie has more than 15 years of experience working with JSI on public health supply chain management projects with a focus on Reproductive Health commodities. As a Technical Advisor with JSI, he has provided technical assistance to numerous countries to strengthen supply chain functions from improving strategic planning and design of logistics systems through the monitoring and measurement of performance indicators of the logistics systems and how to use these data for management decision making. In his current role at the USAID | DELIVER PROJECT, Johnnie provides management leadership to the operations of the Project in several African, Asia and the Far East, and Latin American Countries and Regional Programs.

[< Back to list of speakers](#)

Ian Askew

Director of Reproductive Health Services and Research

Dr. Ian Askew is the Director of Reproductive Health Services and Research within the Population Council's Reproductive Health Program. Ian coordinates the Council's research and technical assistance activities globally that support the generation, communication and utilization of high quality evidence for strengthening reproductive and maternal health services and health systems. He has extensive experience in applying various implementation research and evaluation methodologies and of building individual and organizational capacity to undertake and use research findings. Ian is based in Nairobi, Kenya.

[< Back to list of speakers](#)

Patricia Atkinson

President and Chief Operating Officer

Prior to joining Woman Care Global as President and COO, Ms. Atkinson served as Vice President at Marie Stopes International, where she oversaw global functions including strategy and innovation, clinical, marketing, social franchising, health financing and research & metrics. Previously she was in several roles at the Bill & Melinda Gates Foundation, serving as the operations deputy to the Director of Infectious Diseases and then on the Global Health Delivery team, where she managed a portfolio of innovative financing and global and regional investments to drive the introduction and rapid uptake of health products and services.

Ms. Atkinson also worked at PATH, negotiating public-private partnerships and preparing a new product introduction for an innovative vaccine pipeline. She previously worked in business development and venture capital in the information and communications sectors. Ms. Atkinson received a BA from Stanford University and an MBA from the Stanford Graduate School of Business.

[< Back to list of speakers](#)

Jane T. Bertrand

PhD (sociology), MBA, Chair of the Department of Global Health Management and Policy at the Tulane School of Public Health and Tropical Medicine

Jane T. Bertrand, PhD (sociology), MBA, is the chair of the Department of Global Health Management and Policy at the Tulane School of Public Health and Tropical Medicine. She also holds the Neal A. and Mary Vanselow endowed chair. Her professional interests focus largely on program evaluation and behavior change communication in the areas of international family planning and HIV prevention. Dr. Bertrand has been on the Tulane faculty since 1979, except for the period from 2002-09 when she directed the Center for Communication Programs (CCP), at the Johns Hopkins Bloomberg School of Public Health. She has worked in Latin America since the mid-1970s and has published extensively on family planning in Guatemala. Currently her work focuses on advancing family planning in Kinshasa, DR Congo, through strengthening government commitment, expanding contraceptive access, and tracking progress. At Tulane Dr. Bertrand teaches two courses: Monitoring of Health Interventions in Global Settings and Health Systems Strengthening: International Family Planning. She is fluent in Spanish and French.

[< Back to list of speakers](#)

Aron Betru

Chief Executive Officer, specializes in innovative financing solutions for international development. Mr. Betru oversees all operations of Financing for Development and its subsidiaries.

Mr. Betru is a pioneer in guarantee-backed financing of public health commodities, facilitating millions of dollars in both commercial lending for malaria and trade financing for reproductive health. Mr. Betru has also facilitated stakeholder price negotiations between procurers and suppliers that yielded 10-20% increased access for health commodity users. Mr. Betru is a member of the Bellagio Consensus of 2012 that advocated for multiple method based promotion of Long Acting Reversible Contraceptives, and has served as a strategic advisor on matters of Market Dynamics and Country Engagement for FP2020.

Prior to joining F4D's flagship program, Pledge Guarantee for Health, during its proof-of-concept at the United Nations Foundation and facilitating its spin-off to F4D, Mr. Betru's career includes extensive experience in development at Dalberg Global Development Advisors and in the private sector at McKinsey & Co. and Goldman Sachs.

Mr. Betru is a member of the Council on Foreign Relations and a regular contributor to the Global Health and Diplomacy magazine writing on innovative finance in public health. He holds an MBA from Columbia University's Graduate School of Business, an MA in International Relations from Johns Hopkins University's School of Advanced International Studies, and a BA in Economics and International Studies from Northwestern University.

[< Back to list of speakers](#)

Marte Bratlie

Founder and CEO of RemovAid

Medical doctor, and since 2012 the Founder and CEO of Norwegian company RemovAid. Project Manager of the ACCESS-CI project (Avoiding Contraceptive Controversy. Ensuring task shifting through Standardization of Contraceptive Implant Removals), working to close the gap between insertion and removal accessibility.

[< Back to list of speakers](#)

Klaus Brill

Vice President Corporate Commercial Relations at Bayer Pharma AG

In 1982 he joined Schering as Medical Advisor in various fields (fertility control, hormone replacement therapy, gynaecological therapy, prostatic cancer). Further career milestones at Bayer Pharma are: Head Medical Affairs Gynaecology / Marketing Gynaecology, Head of Business Unit Gynaecology in the German operations, and Head of Strategy and Portfolio Management Global Business Unit Women's Healthcare.

He is biologist by training and has written number of papers on contraception.

[< Back to list of speakers](#)

Andrew N Brown

PhD, BPharm

Andrew Brown is the Consultant Executive Manager for the People that Deliver (PtD) Initiative. Andrew joined the Initiative in June 2013 following an Assistant Professor position at the University of Canberra. He is a pharmacist by background with an 18 year career in hospital and community pharmacy management, before engaging in health supply chain management capacity development since 2007. His initial country based activity has been in the Asia Pacific Region with UNFPA and WHO. More recently he has had the privilege of engaging with the PtD focus countries in Africa.

[< Back to list of speakers](#)

Win Brown

Senior Program Officer for Measurement, Learning & Evaluation on the Family Planning Strategy

Win joined the Foundation in January 2012, and was a core member of the Metrics Group responsible for formulating what became the 120 X 20 goal of the Family Planning 2020 (FP2020) partnership. Win is responsible for shaping and managing investments that contribute to the global measurement agenda.

[< Back to list of speakers](#)

Fabio Castaño

Global Technical Lead for Family Planning and Reproductive Health

Fabio Castaño, MD, MPH is MSH's Global Technical Lead for Family Planning and Reproductive Health (FP/RH). He provides technical leadership in the design, implementation, and monitoring of health systems strengthening strategies to support FP/RH through MSH projects in more than 30 countries. Dr. Castaño has over 23 years of experience supporting complex international FP/RH projects in Latin America, the Caribbean, Africa, and Asia. He has assisted countries in reforming the health sector and expanding universal health coverage.

[< Back to list of speakers](#)

Lester Chinery

Director of Operations at Concept Foundation and Program Director for Concepts Family Planning and Maternal Health portfolios providing support to generic manufacturers

Lester has over 20 years of senior level Reproductive Health/Family Planning experience working with Concept, the International Planned Parenthood Federation (IPPF) and its subsidiary company ICON Ltd, which he founded in 2000, serving as its Managing Director/IPPF Director of Procurement Services until 2008. Prior to that, Lester was Contraceptive Social Marketing Manager for the IPPF European Network, introducing low-cost contraceptives across Eastern Europe in partnership with commercial manufacturers. He was IPPF's first representative at the time of formation of the RHSC and served on the Executive Committee in 2006.

Over the past few years he has overseen Concept Foundations specific work with manufacturers of injectable contraception - the provision of technical support, establishing demand, promoting and collaborating with companies to navigate national regulatory requirements. More recently, Lester has led the effort to identify and explore opportunities for product development of additional injectable contraceptives.

[< Back to list of speakers](#)

Julia Bunting

President of Population Council

Julia Bunting became the ninth president of the Population Council in March 2015. Ms. Bunting is widely known for her path-breaking work on reproductive and maternal health during her 12-year tenure at the UK Department for International Development (DFID), where she oversaw the UK government's international development policy on HIV and AIDS; maternal, newborn, and child health; sexual and reproductive health and rights; and population.

Most recently, she served as a director at the International Planned Parenthood Federation (IPPF), where she led the Federation's Programme and Technical areas.

Ms. Bunting was a lead catalyst of the 2012 London Summit on Family Planning. This event brought together the UK government, the Bill & Melinda Gates Foundation, UNFPA, USAID, national governments, donors, civil society, the private sector, and the research and development community to support the rights of women and girls to decide whether to have children and, if so, when and how many. At the Summit, more than 20 developing-country governments made commitments, and donors pledged an additional \$2.6 billion, to enable an additional 120 million girls and women to have access to voluntary family planning information, services, and supplies by 2020.

Ms. Bunting began her career as a demographer and statistician in the UK government working on domestic issues before moving to DFID in 2000. She worked on DFID's International Statistical Capacity Building Program, collaborating with partners including UN agencies, the World Bank, the International Monetary Fund, and the Organisation for Economic Co-operation and Development to improve the analysis and use of data for decisionmaking—both at the national level and globally. She spent two years in South Africa as a regional statistics adviser working with southern African governments to develop robust indicators for monitoring progress toward national development plans and poverty-reduction strategies.

In June 2013, Ms. Bunting was awarded the honor of Officer of the Order of the British Empire (OBE) by Her Majesty Queen Elizabeth II for improving reproductive health in developing countries.

[< Back to list of speakers](#)

Ms. Bunting has served on the boards of several global health partnerships, including the Health Metrics Network (HMN), the Partnership for Maternal, Newborn and Child Health (PMNCH), and the Reproductive Health Supplies Coalition (RHSC). She served as chair of the RHSC for four years. She has authored numerous research publications on population trends, family planning, and public health.

Ms. Bunting earned a BA (Hons) in Human Science from St Catherine's College, Oxford, and an MSc in Medical Demography from the London School of Hygiene and Tropical Medicine at the University of London.

[< Back to list of speakers](#)

Monique Clesca

United Nations Population Fund (UNFPA) Representative in Niger

Monique CLESCA is the United Nations Population Fund (UNFPA) Representative in Niger, where she provides vision and leadership to the UNFPA team on the ground and leads the implementation of a Country Programme with government that focuses on reduction of Maternal Mortality, uptake of Family Planning, and empowerment of adolescent girls so they can claim their rights.

Ms CLESCA is a long-standing child and women's rights advocate who is a communication and advocacy expert having provided technical assistance to governments and civil society organizations in her native Haiti and throughout the African continent. Holder of a Masters' Degree in Journalism from the Northwestern University Medill School of Journalism in the USA, she is also a published essayist and novelist.

[< Back to list of speakers](#)

Senamede Comla

Youth Coordinator in CILSIDA Association

With the experiences gained since 2003 in the field of community development and health (HIV / AIDS and sexual and reproductive health), Senamede COMLA is local development officer specializes in issues of community health and youth training. He participated in a number of modular training of health HIV / AIDS and completed certificates in the areas of entrepreneurship, planning, management and monitoring / evaluation of projects / programs and community development.

As part of the project TOGO AIDS Round 8 of the Global Fund against AIDS, Tuberculosis and Malaria in TOGO; it is involved in the management of medical care as data manager for 3 sites (Prefectural Hospital of Kpalimé, Polyclinic of Kpalimé, AMC Kpalime of Kpalimé) in the sanitary district of Kloto .

Before this project and until today he works as a community activist in CILSIDA Association involved in the area of advocacy, health, development and research. Currently, he is the "coordinator of youth" where they lead a youth awareness project called "My Body Who Change" with school and extracurricular youth Adamavo the community in the field of sexual and reproductive health.

COMLA Senamede is self-taught and holds a professional degree in Local Development and a Higher National Diploma in Management Assistant Small and Medium Enterprises / Small and Medium Industries (SMEs / SMLs).

It is an excellent therapeutic educator for the care and sexual and reproductive health. It has demonstrated its ability to interact, to work alone or as part of a multidisciplinary team. Versatile with a mind quite developed analysis, it has administrative and management advantages.

[< Back to list of speakers](#)

Lester Coutinho

Deputy Director on the Family Planning team at The Bill & Melinda Gates Foundation

Lester Coutinho leads the country action initiative aimed at contributing to the goals of Family Planning 2020, and ensuring universal access to family planning.

Prior to joining The Bill & Melinda Gates Foundation, Lester worked with the Family Planning and Reproductive Health program at the David and Lucile Packard Foundation from 2001 to 2014. During his tenure at the Packard Foundation he led the program in India, and later led the family planning research and advocacy initiatives in South Asia. Previously, Lester conducted research and taught at the University of New Delhi in the Health Policy Research Centre of the Institute of Economic Growth, the Centre for Development Economics, and the Department of Sociology. In 2000, Lester was awarded the Population and Reproductive Health Leadership Development Fellowship by the MacArthur Foundation. He also previously worked as a journalist at The Times of India between 1989 and 1992.

Lester holds a bachelor's degree in English Literature from St. Xavier's College in Ahmedabad, India. He also has his master's degree in Political Science from University of Gujarat in India, and a master's degree in Philosophy and Sociology from the University of Delhi. Over the past two decades Lester has conducted sociological and anthropological research on a wide range of public health issues including child health, sexual and reproductive health, primary health care, and ethics of health research and implementation. He has partnered in various capacities with donors, universities and global health institutions, and has published and presented papers on health issues at numerous international conferences. He was also a member and co-chair of Gender and Rights Advisory Panel of WHO's Reproductive Health and Rights program from 2008 to 2014.

GENERAL MEMBERSHIP MEETING OF THE REPRODUCTIVE HEALTH SUPPLIES COALITION

5-9 OCTOBER 2015 | OSLO, NORWAY

[< Back to list of speakers](#)

[< Back to list of speakers](#)

Shannon Egan

MNH Program Officer, Accelovate

Is this how it starts? Is there anything missing? MSPH conferred from Johns Hopkins Bloomberg School of Public Health. Four years of professional experience dedicated to enhancing public health outcomes for vulnerable communities in Baltimore City, along the East Coast, and around the globe through advocacy, program development, and strategy management.

[< Back to list of speakers](#)

Helga Fogstad

*Director of the Department for Global Health, Education and Research,
Norad*

Helga is Director of the Department for Global Health, Education and Research at the Norwegian Agency for Development, which is a technical directorate of the Norwegian Ministry of Foreign Affairs. The Department is central in providing technical guidance on Norway's health, education, research and development portfolio, both through the bilateral programs, as well as global initiatives and funds supported by Norway. The Department is also responsible for grant management, as well as measurement and quality assurance of the results in Norwegian development cooperation within the above topic areas. It also facilitates public debate on related aid and development topics, and is heavily engaged in advocacy and dissemination of research findings.

Helga represents Norway on several international Boards and expert committees, and was heavily involved in the development of the UN Secretary General's Global Strategy for Women's and Children's Health in 2010. Helga has 25 years of working experience in health planning and development at facility, district and national levels, as well as at international level within multilateral and bilateral agencies. She has also spent much of her life in Africa. She is a health economist and has co-authored several publications related to public health.

Photo credits: Sandra Aslaksen/ Norad

[< Back to list of speakers](#)

Beth Fredrick

Executive Director of the Advance Family Planning (AFP) initiative of the Bill and Melinda Gates Institute for Population and Reproductive Health

Beth Fredrick is Executive Director of the Advance Family Planning (AFP) initiative of the Bill and Melinda Gates Institute for Population and Reproductive Health, with the Johns Hopkins Bloomberg School of Public Health. She is also Senior Associate within the Department of Population, Family and Reproductive Health. She has worked with the Center for Communications Programs, also a partner of AFP, with the International Women's Health Coalition as their Executive Vice President and with the Guttmacher Institute as Senior Vice President and Chief Operating Officer. She was a Bell Fellow at Harvard University and adjunct faculty at the New York University Robert F. Wagner Graduate School of Public Service. She chairs the Board of Ibis Reproductive Health and serves on the Board of EMpower, a grant-making organization supporting health and development programs in emerging markets.

[< Back to list of speakers](#)

Mike Frost

Director of the Center for mHealth at John Snow, Inc.

Mike Frost has led mHealth, applied technology and supply chain activities on the ground in Liberia, Ghana, Guatemala, Mozambique, Myanmar, Nigeria, Palestine, Tanzania, the United States, Zambia and Zimbabwe. He has acted as project manager for the creation of multiple technology applications, working closely with software developers and local ICT partners, from the gathering of system design criteria through the development, pilot and scale-up phases. Mr. Frost is a featured presenter for the USAID Mobile Data Solutions course, and has moderated health technology forums for the mHealth Working Group and the International Association of Public Health Logisticians. He has written on mobile technology for the Supply Chain Management and Pharmalink newsletters, as well as the GSA-sponsored Mobile Government website. Mr. Frost currently works as a Senior Advisor at the Norwegian Institute of Public Health, and as the Director of the Center for mHealth at John Snow, Inc.

[< Back to list of speakers](#)

Anna Galle

research assistant for the International Centre for Reproductive Health (ICRH)

Anna GALLE is a Midwife with a Master Degree in Health Promotion and postgraduate certificate in Conflict and Diplomacy. She worked as a midwife and health coordinator in Rwanda, Mali and Guatemala and has experience in training of health care providers and traditional birth attendants.

Currently Anna is working as a research assistant for the International Centre for Reproductive Health (ICRH), a multidisciplinary research centre within Ghent University (Belgium). She is based in Mozambique for the implementation of the RHSC-funded project which aims at improving supply management of family planning methods through enhancing the motivation of health care workers.

[< Back to list of speakers](#)

Heran Borta Gerba

*Deputy Director General of Ethiopian Food, Medicine & Healthcare
Administration & Control Authority*

Ms Heran Gerba Borta is the Deputy Director General of Ethiopian Food, Medicine & Healthcare Administration & Control Authority, since January 2014.

From June 2013 up to December 2014 Medicine she was dossier assessment senior expert at Ethiopian Food, Medicine and Health care Administration & Control Authority.

From September 2003 to May 2013 she worked in different positions at the Medicine Quality Control Laboratory of Ethiopian Food, Medicine & Health Care Administration and Control Authority.

She received her Bachelor of Pharmacy from Addis Ababa University, School of Pharmacy in the year 2003 and Master's Degree in Pharmaceutical Analysis and Quality Assurance from the same University in the year 2010.

In addition, she has undergone several other professional supportive and professional career development training programmes in health regulation and related sectors; including short courses.

[< Back to list of speakers](#)

Victoria Graham

Sr. Technical Advisor in the Office of Population and Reproductive Health (PRH)

Victoria Graham is a Sr. Technical Advisor in the Office of Population and Reproductive Health (PRH) within USAID's Bureau of Global Health where she began working in 2002. Victoria works to advance the CHW provision of injectable contraceptives as a standard of practice across Africa and to increase the family planning methods provided at the community level.

In 2009 Victoria began working closely with others in USAID's Office of PRH to plan, procure, and introduce new family planning commodities in USAID programs. Victoria's technical expertise in community-based programming and knowledge of injectable contraceptives and family planning service delivery channels helps lead USAID's efforts to introduce Sayana Press globally.

Victoria has more than 26 years of experience in international public health and has worked in family planning, infectious disease, maternal and child health, and food security. Prior to her work at USAID, Victoria worked for several international public health organizations and was the first Executive Director of the NGO network association, the CORE Group.

[< Back to list of speakers](#)

Samyn Griet

Technical officer training and e-learning of i+solution

Griet Samyn obtained her Master's Degree in Educational Sciences in the Catholic University of Louvain, Belgium, followed by a Postgraduate in Social and Cultural Anthropology. In 2001, she received the title of Doctor in Anthropology at the National Autonomous University of Mexico.

Her professional life has been based on two major pillars. On one side, she has dedicated herself to educational activities. On the other side, she has fulfilled administrative and managerial positions in various international work environments.

Since 2007, these skills have blended in the new of e-learning. She was appointed director of the Centre of e-Learning in the newly constructed International Health Sciences University in Kampala where the online Masters' programme in Public Health was a first in East-Africa. As one of the directors of an eLearning company, she has assisted with the development and management of various platforms and online courses for local companies, international NGO's and international exchange programmes.

During 2013, she was appointed technical officer training and e-learning of i+solutions, responsible for the revitalization and move of the i+solutions supply chain courses in medicines and medical supplies from in-situ courses to online courses. This was done through the creation of the Moodle learning platform i+academy. Since 2014, she has continued working for i+solutions as its e-learning consultant, with a focus on the content development, facilitation and management of i+academy which hosts a growing number of courses and participants.

[< Back to list of speakers](#)

Kate Grindlay

Senior Project Manager at Ibis Reproductive Health

Kate Grindlay manages a portfolio of quantitative and qualitative social science research with a focus on improving reproductive health in underserved communities and exploring the potential of innovative approaches and technologies to increase reproductive health access. She also serves as the Executive Director of the Cervical Barrier Advancement Society, an advocacy organization managed by Ibis that provides information and resources about cervical barriers methods, including diaphragms, caps, female condoms, and other devices. She has published and presented on reproductive health access for US servicewomen; the safety, effectiveness, and acceptability of telemedicine for medication abortion provision; and over-the-counter access to oral contraception, among other topics. Prior to joining Ibis, Kate worked for the University of California, San Francisco's Women's Global Health Imperative on the MIRA trial to evaluate the diaphragm as a possible method of female-controlled HIV and STI prevention. She left UCSF in 2007 to pursue an MSc degree in Public Health at Harvard University, and has been at Ibis since graduating in 2009.

[< Back to list of speakers](#)

Denise Harrison

Denise Harrison holds an MBA from Columbia Business School in Marketing and Management and has many years of experience in global pharmaceutical and medical device marketing as well as managing complex, multi-stakeholder projects in the areas of family planning, reproductive health and HIV/AIDS. Denise provides technical assistance in social marketing, market dynamics and market development and has supported several USAID Missions in Sub-Saharan Africa and Asia to make tough market decisions. Analyzing Africa's pharmaceutical markets and how to leverage their rapid growth for public health is one of Denise's focus areas. Additionally, she is passionate about emergency contraception and believes EC markets in Sub-Saharan Africa are dynamic and fascinating. Denise has presented on Africa's growing pharmaceutical market and what this means for access to FP/RH at Women Deliver in 2013 and RHSC's Annual Conference in 2013 and 2014. She has presented on EC markets with ICEC at EC Jamboree in September 2014 and RHSC's Annual Conference in 2014.

[< Back to list of speakers](#)

Tore Hattrem

State Secretary at the Norwegian Ministry of Foreign Affairs

Tore Hattrem was appointed State Secretary at the Norwegian Ministry of Foreign Affairs in September 2015. His main areas of responsibility are security policy, the High North, matters relating to the US, Russia, Eurasia and Canada, humanitarian affairs and human rights.

Mr Hattrem has been with the Ministry of Foreign Affairs since 1992, during which time he has gained broad diplomatic experience. Prior to his current appointment, he was Director General of the Department for Regional Affairs. He served as Ambassador to Afghanistan from 2010 to 2012, and as Ambassador to Sri Lanka from 2007 to 2010. Before that, he was Deputy Director General and Head of the Section for Peace and Reconciliation (2002-2007). He has been Adviser in the UN Security Council Unit (2000-2002), and he has been posted to the Permanent Mission of Norway to the UN and the WTO in Geneva (1997-2000), and to the Norwegian Embassy in New Delhi (1994-1997). He has also worked in the UN Section (1992-1993).

Before joining the Ministry of Foreign Affairs, he worked as Senior Executive Officer in the Ministry of Finance, and as officer in the Norwegian Armed Forces for several years.

Mr Hattrem has previously headed the Norwegian facilitation team in the peace process between the Government of the Republic of the Philippines and the National Democratic Front (a communist movement in the Philippines).

Mr Hattrem holds a Master degree in Political Science (Cand. Polit.), and a B.Sc. in Economics and Political Science. He graduated from the Norwegian Officer Candidate School in 1982.

Alexis Heaton

Alexis Heaton has been working with John Snow Inc. for over seven years providing technical guidance and assistance to a variety of teams and projects in the areas of quantification, procurement, and supply chain management. She is currently working with Coordinated Supply Planning working group as the group's coordinator, helping to facilitate data sharing across organizations to achieve greater efficiencies and improved access for family planning products.

She has over 10 years of experience in strategic planning and program management, with a focus on supply chains for global health.

[< Back to list of speakers](#)

Karen Hoehn

During her 27 year career, Ms. Karen Hoehn has helped raise US\$1.64 billion to improve health and reduce poverty among impoverished communities and vulnerable people worldwide. This includes more than 10 years' tracking, analyzing and preparing user-friendly advocacy communications regarding global financial resource flows for sexual and reproductive health and rights.

An International Development and Management Consultant since 2013, Ms. Hoehn has helped the World Health Organization, the Reproductive Health Supplies Coalition and national and international non-profit organizations spanning 185 countries with public policy research, analysis and advocacy; donor and investor liaison; resource mobilization / business development; program evaluation; and stakeholder facilitation and communications messaging. Prior positions include: Vice Executive Director and International Director, Partnership and Communications for DSW; Director, Strategic Health Systems Development; Vice President, Public Programs, APS Healthcare; Director, Government Programs Development, CMG Health; and EU Liaison Officer and Resource Mobilization Officer, IPPF European Network; among others.

With a Master's degree in public sector financial management and social policy, and a Bachelor's degree in political science, Ms. Hoehn has been responsible for dozens of publications on donor policies and financing, including the recent RHSC-funded Rapid Assessment of Post-2015 Financing for Reproductive Health Supplies and two peer-reviewed journal articles in the past year.

Ms. Hoehn currently serves in a volunteer capacity on the Board of Population Services International - Europe (Amsterdam) and Children Are the Future (Brussels).

[< Back to list of speakers](#)

Jane Hutchings

Director of PATH's Reproductive Health Global Program

Jane Hutchings is Director of PATH's Reproductive Health Global Program which focuses on improving sexual and reproductive health by enhancing commitment and capacity to implement appropriate and effective interventions at scale. Ms. Hutchings has more than 30 years' experience developing and implementing innovative and effective reproductive health programs in developing countries, including Bangladesh, Cambodia, Guatemala, India, Kenya, Nicaragua, Pakistan, Thailand, Ukraine, Vietnam, and the United States. Ms. Hutchings has done extensive work with emergency contraception, including serving on the International Consortium for Emergency Contraception (EC) Steering Committee, working within Washington State to increase access to emergency contraceptive information and services through the first US effort for direct pharmacist provision of EC, and through state-administered health and social service programs, with a focus on ethnically diverse US communities. She led the development of the Reproductive Health Supplies Coalition, a global multi-agency effort to ensure ongoing supply of reproductive health supplies to low- and middle- income.

[< Back to list of speakers](#)

Farouk M Jega

Country Representative (Nigeria), Pathfinder International

Farouk Jega, MD, MPH, is a medical doctor with 12 years of experience in clinical aspects of Sexual and Reproductive Health, and SRH programme management and evaluation. He is presently the Country Representative of Pathfinder International for Nigeria, overseeing the operations of a multi-million dollar investment in sexual and reproductive health programs in maternal and newborn health, contraception and HIV/AIDS. Farouk is an untiring advocate for women's health and rights and in his free time works to train girl peer educators in SRH in underserved communities.

[< Back to list of speakers](#)

Victoria Jennings

Director, The Institute for Reproductive Health, Georgetown University

Dr. Victoria Jennings has more than 30 years of experience developing, managing, implementing and advising FP/RH programs in capacity building, evaluation, and advocacy. As Director of the Institute for Reproductive Health at Georgetown University, Dr. Jennings leads the RHSC Innovation Grant, Expanding Consumer Access to Reproductive Health Supplies in an e-Commerce Age: Promise and Perils for the Future.

She also leads the USAID-funded Fertility Awareness for Community Transformation (FACT) Project, which test innovative strategies to increase fertility awareness and expand access to Fertility Awareness-Based Methods (FAM) and the Gates Foundation-funded A3 Project which aims to improve RH outcomes by expanding FP access through FBOs, mobile phones, and improving adolescent fertility awareness.

[< Back to list of speakers](#)

Selo Mogatle

Technical Specialist - Quality Assurance of Medicines

Ms. Selo Mogatle is as Technical Specialist (Pharmacist) in charge of the Quality Assurance of Medicines at UNFPA. She provides technical assistance on contraceptive technology, new developments, issues on quality and safety of innovator and generic RH medicines. She is responsible for the assessment and inspections of factories of manufacturers of RH medicines which need quality assessments for UNFPA's procurement including finalizing the respective reports. She is leading the improvement of the QA system of RH medicines. Prior to joining UNFPA, Selo worked for Government of Botswana in the Ministry of Health, Drugs Regulatory Unit (DRU) where she rose through the ranks to become the Head of Evaluation of applications for registration. During her time at the Ministry of Health she led the adoption, creation, adaptation and implementation of various guidelines relating to regulation of medicines. Some of the guidelines were adapted and adopted from SADC (Southern Africa Development Community), WHO and ICH (International Conference on Harmonisation). She developed a guideline on registration of pharmaceuticals from Stringent Regulatory Agencies including WHO prequalified medicines. This resulted in reduced waiting times and improved use of resources. She created an open environment where applicants for medicine registration could discuss their concerns in order to improve the efficiency of medicines registration. She has experience in inspection of manufacturing facilities for compliance with current WHO Good Manufacturing Practices and on post-marketing surveillance. During her time in Botswana she led the procurement of a medicine scanner (to test for quality of medicines in the market) which is used for preliminary testing by the DRU. She joined the WHO quality assessors team in Nov 2009 where she was engaged every two months to assess applications for prequalification of medicines. Selo has a strong passion for improving access to medicines that meet internationally acceptable standards - both generics and innovator products.

John Skibiak

Director, Reproductive Health Supplies Coalition

John Skibiak brings more than 30 years of experience in the development field, most of it spent managing, directing, and leading reproductive health programmes in Africa, Asia, and Latin America. He currently serves as the Director for the Reproductive Health Supplies Coalition, a global partnership of public, private, and nongovernmental organizations dedicated to ensuring that all people in low- and middle-income countries can access and use affordable, high-quality supplies to ensure their better reproductive health. Prior to joining the Coalition in 2006, John was Director of the Population Council's Africa Programme to Expand Contraceptive Choice and founder of ECafrique, a bilingual network of health care professionals seeking to mainstream quality emergency contraception services in Africa. A key player in the development and implementation of the WHO Strategic Approach, John has conducted strategic assessments of reproductive health needs in Africa and Latin America, and played a central role in the development of Ethiopia's national Reproductive Health Strategy. An anthropologist by training, John brings skills and professional experience in such areas as appropriate technology and micro-enterprise development—experience that has also enabled him to engage with nontraditional partners in the health field such as small businesses, judicial sectors, and the advertising and pharmaceutical industries. In addition to writing, he is also frequently asked to review articles for *Network*, *Outlook*, the Population Council's peer-reviewed journal *Studies in Family Planning*, and other international health publications.

John Townsend

Vice President and Director, Reproductive Health, Population Council

John Townsend, PhD, is a vice president and director of the Population Council's Reproductive Health program. He provides leadership, directs research initiatives, and advances policy innovations that translate into better-functioning health systems, improved sexual and reproductive health, and enhanced respect for the right to health for women and men worldwide.

Townsend oversees research focused on three core areas: basic biomedical studies and the development of male and female contraceptives; social science research to identify causes of poor sexual and reproductive health outcomes; and research on the development, scale-up, financing, and sustainability of service-delivery models. He works closely with international health and development agencies, ministries of health, and private healthcare providers to implement policies and programs that encourage more effective healthcare practices; participates in multiple interagency committees on contraceptive technology, gender, and reproductive health services; and represents the Council in meetings with national and international policymakers worldwide.

[< Back to list of speakers](#)

Wendy Turnbull

Senior Advisor, International Advocacy

Wendy guides and implements PAI's international advocacy strategy to increase political and financial support for sexual and reproductive health and rights globally and nationally. She focuses on cultivating and supporting Southern CSO partners to strengthen advocacy capacity and develop effective strategies and messages for sustained SRHR advocacy. Wendy advises and manages small advocacy grants, provides targeted advocacy TA, and connects Southern advocates to regional and global initiatives. She led PAI's Global Gag Rule Impact Project documenting the policy's harm to family planning services and supplies, and continues to monitor and assess U.S. policy and funding trends in the field. Prior to joining PAI in 1999, Wendy was senior policy analyst with The Guttmacher Institute and federal lobbyist for the American College of Obstetricians and Gynecologists. Wendy earned a BA in political science from the University of Maryland, College Park.

Jagdish Upadhyay

Chief Commodity Security Branch

Mr Jagdish Upadhyay, Chief Commodity Security Branch, joined UNFPA over 20 years ago, and has spearheaded numerous new initiatives and partnerships that have successfully advanced UNFPA's mandate to achieve universal access to sexual and reproductive health. He was one of the architects of the concept of Reproductive Health Commodity Security, introduced into UNFPA in 2000, leading the launch of the UNFPA Global Programme to Enhance Reproductive Health Commodity Security (GPRHCS) - now known as UNFPA Supplies. The Programme was established as an innovative way to save and empower women's lives: the only United Nations programme specifically focused on reproductive health commodity security. Under his leadership, to date UNFPA has mobilized over \$900 million for support to countries through the provision of vital reproductive health supplies and services.

A founding member of the Reproductive Health Supplies Coalition, Jagdish continues to provide direction and strategy as a member of the Executive Committee. He was also a key supporter of, and helped shape the formation of, the FP2020 partnership as an outcome of the 2012 London Summit on Family Planning. On behalf of UNFPA, Jagdish co-leads the FP2020 Country Engagement Working Group, which is working with partners to provide additional support to countries to implement their family planning plans. His active role in this Working Group, has helped strengthen in-country coordination mechanisms for family planning programmes.

Prior to joining UNFPA, Jagdish was CEO of the Nepal Social Marketing Company: a joint venture of the Government of Nepal and USAID. Obtaining first-hand information from clients in remote villages of Nepal, Jagdish generated demand for family planning, and pioneered many social marketing techniques, implemented community mobilization and integrated family planning and reproductive health services at primary health care level.

Dirk Van Braeckel

Director of Finance and Administration at the International Centre for Reproductive Health (ICRH)

Dirk VAN BRAECKEL is Director of Finance and Administration at the International Centre for Reproductive Health (ICRH), a multidisciplinary research institute within Ghent University, where he is also involved in projects in the field of family planning and contraception. He has a special interest in social-economic and environmental determinants and impacts of fertility.

Dirk holds a master's degree in environmental sciences. Before coming to ICRH in 2009 he worked as Research Director for a research and rating agency in the field of corporate social responsibility.

[< Back to list of speakers](#)

Renee Van de Weerd

Senior Technical Adviser on the Commodity Security Branch of UNFPA's Headquarters

Since July 2013, Renee Van de Weerd is a Senior Technical Adviser on the Commodity Security Branch of UNFPA's Headquarters. In this function she is coordinating supplies of contraceptive commodities.

Before joining UNFPA, she was the Chief of the Maternal, Newborn and Child Health unit in UNICEF's headquarters in New York. In that function she co-hosted with UNFPA the Secretariat for the UN Commission on Life-Saving Commodities.

Renee received her medical degree from the University of Leuven, Belgium. She has a Diploma in Tropical Medicine from the Institute of Tropical Medicine, Antwerp, Belgium; a Master of Science in Epidemiology from the London School of Hygiene and Tropical Medicine and a Master of Business Administration from the University of Wales.

Before coming to New York, Renee was the Health Officer in the UNICEF Chad Country Office for the regular and Darfur refugees' programme, for more than 2 years. Prior to working for UNICEF, she worked almost 6 years for the WHO immunization programme during which time she was based for 3 years in Geneva and 3 years in the African Regional Office, focusing on immunization and surveillance in complex emergencies such as the Democratic Republic of Congo and Angola. She started her international career more than 20 years ago with Médecins Sans Frontières - Belgium for whom she worked some 4 years mainly as medical coordinator in emergencies ranging from Chechnya, the Great Lakes to Sierra Leone.

Maaïke van Min

Francophone Sahel Lead, Marie Stopes International

Ms. van Min is a programme management and sexual and reproductive health expert with more than 10 years of experience managing international health programmes in Africa, the Middle East, and Asia. Ms. van Min has experience running complex, technical health development programmes in Senegal, the Democratic Republic of Congo, Indonesia, Chad and Yemen mainly focusing on sexual and reproductive health, family planning, HIV/AIDS prevention, care and treatment and humanitarian and emergency crisis response.

Through her in-country experience she has developed expertise in programme planning, management, establishing key M&E systems, capacity building of programme staff and public sector staff and sharing best practice. In addition to her international programmatic management experience, Ms. van Min has deep expertise in developing, managing and supporting complex policy engagement strategies across technical areas such as family planning, safe abortion, sexual and reproductive health, HIV/AIDS and humanitarian response with short route and long route avenues and advocating for these among key stakeholders globally.

She has led and spearheaded the establishment of operations for Marie Stopes International in Senegal. As Country Director, she was responsible for the strategic vision and oversight of all activities conducted in the country and for results and overall growth of operations. Since beginning operations early 2012, MSI has generated over 250 000 CYPs and served over 100 000 women with RH services. Ms van Min is currently leading the design of a strategic vision and operational model for MSI in the Francophone Sahel countries of Senegal, Mali, Burkina Faso and Niger, which will ensure this region is strategically placed to face the challenges of 2020.

Prior to this role Ms. van Min has had various key programmatic management, design and policy engagement roles across numerous international organisations in varying settings across the world.

Ilse Van Roy

Director Family Planning for Institutional Business Africa

Ilse Van Roy joined Organon UK in 1999 and was, as marketing manager, closely involved in the successful launch of Implanon. She was Business Unit Director Women's Health in the UK after the Schering-Plough acquisition and subsequent MSD acquisition. During these years she played a key role in the strong uptake of Implanon through the implementation of training programs and social marketing campaigns. She developed strong relationships with Key Opinion Leaders, NGO's and government departments involved in the Sexual Health Policies in the UK. She led the successful switch to Nexplanon.

She is now working as director Family Planning for Institutional Business Africa, responsible for growing access to Implanon NXT across all Sub-Saharan-African countries.

She holds a degree in Clinical Psychology from the Vrije Universiteit Brussels and an MBA from the London Business School.

Ricardo Vernon

Senior Associate, INSAD

Ricardo Vernon is a partner and senior associate at INSAD, a private planning, research and evaluation consulting firm in Mexico City, where he works in the areas of health, education and social development. Previously he worked for 22 years at the Population Council directing reproductive health operations research programs in Latin America and the Caribbean. He has published very extensively and received his Ph.D. in Sociology at the University of Chicago.

[< Back to list of speakers](#)

Martin Edmond Wanzala

Co-Founder and CEO/Team Leader, Allied Youth Initiative - Uganda

Martin is Co-Founder and CEO/Team Leader of Allied Youth Initiative - Uganda, where he provides strategic leadership and oversight on almost all aspects of the organization's operations. He is a strong advocate for youth empowerment and development with keen interest in sexual and reproductive health, human rights, employment, gender equality and youth participation in Uganda and beyond.

He is a proud Alumni of the prestigious Women Deliver Young Leaders Program where in March 2014, Martin was one of the 10 inaugural Young Leaders awarded seed grants under the pilot C-Exchange Youth Initiative Seed Grants Program. He used the grant to pilot the Better-quality Access for Youth (BAY) project which continues to work with and through partner organizations across fields to advance increased investment in youth-focused SRH programs as a means to accelerate progress towards achieving Uganda's local and international development targets.

Martin holds a Bachelor's degree in Social Sciences from Makerere University, Kampala; and has previously Co-Founded the African Youth Development Link. He is a member of the Young Leaders' Think Tank on Policy Alternatives (an initiative of the Konrad-Adenauer Stiftung in Uganda) and the Steering Committee of UNFPA's African Youth & Adolescent Health Network (AfriYAN) - Uganda Chapter.

[< Back to list of speakers](#)

Elizabeth Westley

Director of International Consortium for Emergency Contraception

Elizabeth Westley directs the International Consortium for Emergency Contraception, housed at Family Care International. Her work focuses on a range of topics that relate to emergency contraception access: policies, norms and guidelines, clinical and technical topics, regulatory aspects, and market and donor issues. She is actively involved in RHSC's New and Underutilized Reproductive Health Technology (NURHT) Caucus and the Market Development Approaches Working Group, and seeks to learn more about how total markets that include the private commercial sector are increasing access to emergency contraception and other important reproductive health technologies.
