

## What does the RHInterchange do?

- provides timely information on upcoming contraceptive orders and shipments
- contains centrally-housed data, but is individually accessible
- stores historical information
- saves time
- is available anywhere there is Internet
- is easy to learn, easy to use
- informs preparation for technical assistance and decision making

## Who benefits from the RHInterchange?

The RHI is valuable for a variety of users and decision makers:

- Technical Assistance Providers
- Country-based Commodities Managers
- Contraceptive Security Committees
- Country-based Program Managers
- Ministers of Health
- Advocacy groups
- Researchers
- Donors
- Manufacturers

## The RHInterchange and the Reproductive Health Supplies Coalition (RHSC)

The Reproductive Health Supplies Coalition is a global partnership of public, private, and non-governmental organizations dedicated to ensuring that all people in low- and middle-income countries can access and use affordable, high-quality supplies to ensure their better reproductive health.

The RHInterchange responds to the supplies community's need for information for decision making, advocacy and coordination around RH supplies issues. The first and only site of its kind, the RHI is an easily accessible, live repository for harmonized global information on contraceptive supply orders and shipments.

# RHInterchange

A website for coordination of contraceptive orders and shipments

## Are you ensuring reproductive health product availability?

- Are you **invested** in improving contraceptive supply management?
- Are you **interested** in seeing a national picture of inbound supplies?
- Are you making informed, **evidence-based** decisions?
- Are you **committed** to improving donor coordination?
- Are you playing a role in the **supply chain**?
- Are you **preventing** supply emergencies?

## The RHInterchange can help!

The RHInterchange (RHI) is an easily accessible website that consolidates data on \$1 billion worth of shipments of contraceptive supplies to countries around the world. Data providers include UNFPA, USAID and IPPF.

# RHInterchange

A website for coordination of contraceptive orders and shipments

Easy access to transparent information from multiple sources including IPPF, UNFPA and USAID

Repository for historical information since 2000 on \$1 billion of contraceptives for more than 140 countries (including 71% of donor-provided supplies)

Centrally-housed data; individually accessible on the Web

Online reports for your needs; custom reports available upon request

The screenshot displays the RHInterchange website interface in a Mozilla Firefox browser window. The page title is "RHInterchange - Shipment Summary (Ethiopia) - Mozilla Firefox". The URL is "http://rhi.rhsupplies.org/rhi/ctrylist.do". The page features the logo of the Reproductive Health Supplies Coalition and navigation links for "RH Home", "Service Request", "Funding Sources", and "Help".

The main content area is titled "Ethiopia - Summary of Shipments". It includes a "Select Report" dropdown menu set to "Summary of Shipments" and a "Refine Report" section with filters for "Funding Sources" (listing organizations like CIDA, DFID, DKT, etc.), "Start Date" (1/2007), "End Date" (31/December/2007), "Select Geographic Area" (Ethiopia), and "Methods" (listing various contraceptive methods). A "Done" button is at the bottom left of the filters.

The report text states: "This report provides information about the quantity and value of contraceptives shipped over a period of time. Value and Quantity amounts shown are based on when orders were shipped, not date that corresponds to fiscal obligations or when shipments were actually received. You may refine the data displayed by using the Refine Report area to the left. Click on More I Select Report section to the left for more detail about the data in this report and adjust refinement data."

Method	Quantity	Value
Condoms - Male (pieces)	15,603,000	\$544,600
IUDs (pieces)	100,000	\$32,000
Implants (pieces)	237,500	\$6,749,473
Injectables (doses)	10,954,400	\$10,015,237
Orals-Combined (cycles)	8,501,479	\$2,250,290
Orals-Emergency (doses)	400,000	\$100,000
Orals-Progestin Only (cycles)	880,800	\$266,460
<b>Total</b>		<b>\$19,958,06</b>

  

Method	Quantity	Value	Funding Source
Condoms - Female (pieces)	15,603,000	\$544,600	USAID
Condoms - Male (pieces)	100,000	\$32,000	World Bank
IUDs (pieces)	237,500	\$6,749,473	DKT
Implants (pieces)	10,954,400	\$10,015,237	UNFPA
Injectables (doses)	8,501,479	\$2,250,290	World Bank
