- QUALITY
Data points

Questions answered per NURHT:

- Available and sold in some markets?
- On EML?
- Private sector interest?
- At least one manufacturer pre-qualified?
- Provider-dependent? Youth-friendly? Woman-initiated?
- Administered by lower level health cadres?
- Size of the need? Potential population benefiting?
- Available to procurers at affordable price for public sector distribution?

New technologies

Two new technologies mapped against the criteria:
- Sayana Press
- Anti-shock garment

Other new technologies mentioned.

Role of champions.
The Matrix

• What is your feedback on the matrix?

• Volunteers for additional review of certain NURHTs?

• Process for graduation?

• New technologies for consideration?
The Matrix Reloaded

How to proceed from here?

- Sub-Committee Reloaded?
- Process: how often do we want to update the matrix and decide on possible graduation / entry?

Thank you!
