- Not possible to examine all advocacy outcomes impact
- Many budget outcomes yet to be allocated and spent
- Many policies yet to be implemented
- Few donor agencies and governments monitor implementation of their policies and budgets

*Showing the full impact of the project's budget and policy advocacy is not possible.*

# Impact Assessment: Caveats

## Resource Mobilisation

- Data includes **61 of the known 109** successful project proposals
- Relatively few project reports were shared and in most cases, final evaluations of these projects are not yet available.
