

Avoiding pitfalls of other health strategies: Lessons from CIP development and execution

October 14, 2016

13h30 - 14h20

GENERAL MEMBERSHIP MEETING
— of the —
REPRODUCTIVE HEALTH
SUPPLIES COALITION

10-14 OCTOBER 2016

#RHSUPPLIES2016

Objectives for this session:

- Understand lessons learned from developing CIPs in 30+ countries and the connection with RHSC pillars
- Appreciate how CIPs are evolving as countries/donors/partners gain experience with them
- Know where to find resources on CIP development/execution
- Develop enthusiasm that the CIP Execution approach can facilitate and motivate stronger implementation of FP programs

Small group discussion

- Refer to the *7 Lessons Learned* on the flipcharts
- Using cards at table, each person write down:
 - a) 1 of 7 lessons learned that resonates with them from their experience with health strategies (does not have to be the CIP)
 - b) a question or a recommendation you have about CIP Execution
- Invite 1-2 volunteers to share 1 card only from either set (a or b)
