## *CONSENSUS PLANNING GROUP*

2022 REVIEW

**In 2020, the Coordinated Supply Planning (CSP) Group and the Coordinated Assistance for Reproductive Health Supplies (CARhs) Group merged to become the Consensus Planning Group (CPG). Bringing together the functions of the former groups, CPG members collaborate at the global level to address family planning commodity stock imbalances, while also planning ahead to prevent those imbalances from occurring at all. Housed under the Global Family Planning Visibility & Analytics Network (VAN), the CPG uses data shared within the VAN to improve coordinated supply planning and react swiftly to urgent supply needs.**
